Signs of an overdose:

- Slow or shallow breathing.
- Very sleepy and unable to talk, or unconscious.
- Does not respond to attempts to rouse to consciousness.
- Skin color is blue or grayish, with dark lips and fingernails.
- Snoring or gurgling sounds

If there are symptoms of an overdose:

- Lightly tap, shake, and shout at the person to get a response. If there is still no response, rub knuckles on the breast bone.
- If the person responds, keep them awake.
- Call 911
- ***IF you have access to naloxone, administer it according to the package instructions***
