New Hours for Electronics Recycling Center, Will Be Closed Veterans Day

Cumberland County, Pa. – Cumberland County reminds the public that new operating hours for its Electronics Recycling Center are now in effect. The center is open on Tuesdays and Wednesdays from noon – 4 p.m., and on the second and fourth Saturday of each month from 8 a.m. – 12 p.m. The facility will be closed on County Holidays, including this Saturday, November 11, in recognition of Veterans Day, and also during inclement weather. The County recommends calling ahead if you are unsure if the center will be open.

The County also reminds all e-cycling center patrons to refrain from dropping-off unwanted electronics when the facility is closed. The recycling center is under 24 hour video surveillance and illegal dumping regulations will be enforced. To date, two drop-offs have occurred when the site was closed, both of which were quickly identified through the facility's security system and handled by police.

The center accepts televisions, computers and accessories, mobile devices, entertainment equipment, data center equipment and cable equipment. Please be aware that due to shipping requirements, televisions must be in one piece when brought for recycling; we are not able to accept a disassembled TV.

A fee of \$0.50 per pound of electronics recycled is charged to help offset the County's costs for collecting, packaging, loading, shipping and recycling the materials. The recycler receives \$0.41 per pound of materials and the County covers all its costs with the remaining \$0.09 per pound. Cash, credit and debit card payments are accepted. Unfortunately, we are not able to accept personal checks. For those planning on recycling an unusually large load, please call in advance so accommodations can be made.

For more information about the County's Electronics Recycling Center, visit www.ccpa.net/recycling or call (717) 240-6489.
