

## Erosion & Sedimentation (E&S) Control and Post Construction Stormwater Management (PCSM) Application Package

### REVIEW TIMES:

Non NPDES permitted sites: 30 calendar days for E&S technical review

General/Individual NPDES Applications: See Permit Decision Guarantee Process Guidelines  
[www.depweb.state.pa.us](http://www.depweb.state.pa.us)

### ADMINISTRATION:

All permit applications should include all items required by the NPDES *Standard E&S and PCSM Completeness Review Checklist (3150-PM-BWEW0035)*. **Rolled plan sets will not be accepted.**

The Conservation District will review this plan solely to determine whether it is adequate to satisfy the requirements of Title 25 PA Code Chapter 102, the erosion and sediment control and stormwater management regulations of the Department of Environmental Protection. By a determination that the plan is adequate to meet those requirements, neither the District nor the County assumes any responsibility for the implementation of the plan or the proper construction and operation of the facilities contained in the plan. The design, structural integrity and installation of the best management practices are the responsibility of the landowner and/or contractors. **NOTE:** Before any construction or earthmoving begins, other local, state and/or federal permits may be required from other permitting agencies.

### E&S PROJECT FEE SCHEDULE:

This project fee is for plan review and site inspection services for requirements under Chapter 102, Erosion and Sedimentation Control Program. The project fee covers initial plan submission and one re-submission. **Plans that need reviewed for a third and/or subsequent time, will be charged 25% of the full E&S project fee. The project fee for non-typical plan submissions may be determined on a case by case basis.**

### PCSM PROJECT FEE SCHEDULE:

This project fee is for review and inspection services associated with Individual NPDES permit applications. These services are performed by Conservation District staff in coordination with PA DEP. **Plans that need reviewed for a third and/or subsequent time or an applicable site restoration plan, will be charged 25% of the full PCSM project fee. The project fee for non-typical plan submissions may be determined on a case by case basis.**

### WITHDRAWN APPLICATION POLICY:

The following policy has been developed in addition to the current Chapter 102 regulations regarding a withdrawn application:

1. Fees submitted with the application will not be refunded. 102.6(c)(3)
2. Upon re-application, all fees required by regulation must be submitted. 102.6(b)(1)
3. Withdrawn applications that do not change the scope of the project and are submitted within 180 days of withdrawal will be required to pay 25% of the original Erosion & Sedimentation (E&S) Control Project Fee and 25% of the original Post Construction Stormwater Management (PCSM) Project Fee (for individual permits). 102.6(b)(3)
4. Projects submitted after 180 days from withdrawal will be considered a new project and will require all new District fees based on current fee schedule.

# EROSION & SEDIMENTATION CONTROL AND POST CONSTRUCTION STORMWATER MANAGEMENT PLAN REVIEW APPLICATION

This application form must be completed by the applicant or his/her agent and submitted along with the required fee(s) and application information listed below.

**PROJECT INFORMATION:**

Project Name: \_\_\_\_\_  
 Municipality: \_\_\_\_\_  
 Type of Development: \_\_\_\_\_ (Choose appropriate letter)  
     R) Residential      C) Commercial/Industrial      U) Utility      R/C) Residential & Commercial  
     Ag) Agricultural      R/B) Road/Bridge      S) School      REC) Recreational      O) Other  
 Total Project Acres: \_\_\_\_\_ Disturbed Project Acres: \_\_\_\_\_  
 If Residential, Total Number of Lots/Units: \_\_\_\_\_  
 Receiving Watercourse(s) and corresponding Chapter 93 Designated Use(s) and if applicable, Existing Uses(s):  
 \_\_\_\_\_  
 \_\_\_\_\_

Applicant Name: \_\_\_\_\_  
 Responsible Party: \_\_\_\_\_ E-Mail: \_\_\_\_\_  
 Address: \_\_\_\_\_  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_ - \_\_\_\_\_  
 Phone: \_\_\_\_\_ Fax: \_\_\_\_\_

Consultant Name: \_\_\_\_\_  
 Plan Preparer: \_\_\_\_\_ E-Mail: \_\_\_\_\_  
 Address: \_\_\_\_\_  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_ - \_\_\_\_\_  
 Phone: \_\_\_\_\_ Fax: \_\_\_\_\_

**PROJECT INFORMATION:**

Does your project propose an earth disturbance more than 5000 square feet?  Yes  No  
 Does your project propose an earth disturbance of 1 acre or more?  Yes  No  
 Does your project require an NPDES Permit?  Yes  No  
 Permit Type:  Individual  General  
 NPDES permit number if one has already been obtained: \_\_\_\_\_

**NON-NPDES APPLICATION CHECKLIST:**

- One folded copy of E&S plan drawings, one copy of E&S narrative and completed fee schedule
- Check for fee(s) to CCCD Clean Water Fund (see page 3 to determine appropriate fee(s))

**NPDES PERMIT APPLICATION CHECKLIST:**

- All items listed on NPDES *Standard E&S and PCSM Completeness Review Checklist (3150-PM-BWEW0035)*
- NPDES filing and E&S Project Fee(s) to CCCD Clean Water Fund (see page 3 to determine appropriate fee(s))
- PCSM Project Fee to CCCD Clean Water Fund – **Individual Only** (see page 3)
- DEP Disturbed Acre Fee (see page 3) made to Commonwealth of PA Clean Water Fund

**Project Fee Waiver** Check one  Municipality  Chapter 105 GP  Cooperating Agency

---	-------------------------------	----

**Please return this form with the complete application package.**

**\* COMMERCIAL/INDUSTRIAL, UTILITY, AGRICULTURAL, RECREATIONAL, ETC:**

Fees are based on the total number of disturbed acres which include all utility rights-of-way, spoil and borrow areas, access roads and areas large enough for contractor to perform proper grading.

**\*\*RESIDENTIAL:**

A unit is defined as a dwelling designed to accommodate a single household. Multi-story residential buildings will have the E&S Project Fee based on the number of lowest living level units, not total units.

**\*\*\*MIXED USE PROJECTS (i.e. Residential and Commercial)**

The E&S Project Fee shall be based on the number of units as explained above plus the commercial/industrial/utility Project Fee for the number of disturbed acres associated with that land use.

Section 3 of PAG-02 (2017 Amendment)

**3. NOTICE OF INTENT (NOI) SUBMITTAL**

- B. The following activities are not eligible for coverage under this permit:
1. Discharges to waters, including wetlands, with a designated or existing use of High Quality or Exceptional Value pursuant to 25 Pa. Code Chapter 93 (relating to Water Quality Standards);
  2. Discharges which contain hazardous pollutants, toxics, or any other substance which - because of its quantity, concentration, or physical, chemical, or infectious characteristics - may cause or contribute to an increase in mortality or morbidity in either an individual or the total population, or pose a substantial present or future hazard to human health or the environment when discharged into surface waters of this Commonwealth;
  3. Discharges which individually or cumulatively have the potential to cause significant adverse environmental impact;
  4. Discharges to waters for which NPDES general permit coverage is prohibited under 25 Pa. Code Chapter 92a (relating to NPDES permitting, monitoring and compliance);
  5. Discharges which are not, or will not be, in compliance with any of the terms or conditions of this general permit;
  6. Discharges for which the responsible party (person) has failed and continues to fail to comply or has shown a lack of ability or intention to comply with a regulation, permit, and schedule of compliance or order issued by DEP or an authorized conservation district;
  7. Discharges subject to categorical point source effluent limitations promulgated by EPA for categories other than construction or post construction;
  8. Discharges which do not, or will not, result in compliance with applicable effluent limitations or water quality standards;
  9. Discharges from construction activities for which DEP requires an Individual NPDES permit to ensure compliance with the Clean Water Act, the Clean Streams Law, or rules and regulations promulgated thereto; or where a change has occurred in the availability of demonstrated technology or practices for the control or abatement of pollutants applicable to the point source;
  10. Discharges associated with coal mining or noncoal mining activities pursuant to DEP's regulations at 25 Pa. Code Chapters 77 and 86-90;
  11. Discharges associated with a construction activity that may adversely affect a Pennsylvania or federal endangered or threatened species or its critical habitat;
  12. Discharges from a site where other point source(s) require the issuance of an Individual NPDES permit;
  13. Discharges to surface waters identified as impaired waters where the proposed discharge will result in a net change (pre-condition to post condition) in volume or rate or water quality of the stormwater unless an analysis is completed which documents that the discharge will neither cause nor contribute to an impairment of the receiving water;
  14. Discharges of pollutants of concern to waters for which there is a Total Maximum Daily Load (TMDL) established or approved by EPA including the Chesapeake Bay unless the E&S and PCSM Plans include implementation measures or controls that are consistent with the assumptions and requirements of such TMDL. To be eligible for coverage under this general permit, persons must implement conditions applicable to their discharges necessary for consistency with the assumptions and requirements of such TMDL. If a specific wasteload allocation has been established that would apply to the discharge, persons must implement necessary steps to meet that allocation;
  15. Discharges to MS4 and CSO municipal systems without the written consent of the MS4 or CSO permit holder unless those discharges result in no net change (pre-condition to post condition) in volume or rate or water quality.
  16. Discharges of (a) wastewater from washout of concrete, unless managed by an appropriate control; (b) wastewater from washout and cleanout of stucco, paint, form release oils, curing compounds and other construction materials; (c) fuels, oils, or other pollutants used in vehicle and equipment operation and maintenance; and (d) soaps or solvents used in vehicle and equipment washing.
