It is understood that the magisterial district judge specially assigned in this order shall have criminal and civil jurisdiction and authority of the assigned magisterial districts and shall continue to exercise jurisdiction and authority in their elected or appointed magisterial district. The presiding magisterial district judges of the assigned magisterial districts shall have full power and authority to preside in their own districts during this period of special assignment. The purpose of these assignments is to insure the availability at all times within this 9th Judicial District of at least one magisterial district judge. If during normal court hours a magisterial district judge is verified to be unavailable and a local but not on-call district court is available, the nearby magisterial district judge may, but shall not be required to, exercise county-wide criminal or civil jurisdiction and authority in addition to the assigned on-call magisterial district judge.
